

S'ENVOLER Naissance d'une passion

FLYING birth of a passion

## Tandem flight, discovering day

Fly with a professional instructor (BEES 1<sup>st</sup> degree), specialist in tandem flights. Your active participation, with a short run, will be necessary for the taking off and the landing.

The amazement of this flight will also be for you the opportunity to learn the basics of the piloting technique. Indeed, if you want, you will be able to pilot a little, with taking the breaks under the careful advises of your teacher.

### **\* Discovering day**

### ***the revelation of a passion***

---

A discovering tandem flight and a slope school. An interesting experience to get the basic gesture of piloting.

After the pedagogic tandem flight, you will learn how to control a glider on the ground on a small slope and you will already feel the first sensations of the lifting force.

### **Level required**

---

No experience is necessary, flying is possible for everyone from 8 years old (parents authorisation for the minors).

Flying is a voluntary act of breaking with the common, your motivation and your investment will be the guaranty of your progression and your pleasure in a sport considered as a risky sport.

Handicapped Persons, blind or person who can't walk anymore : we can organise a flight with the help of another teacher at the take off. When you will be in the air, there will be no differences.

### **Dates 2009 & registration**
